

Virtual Chief AI Officer

Empowering Responsible AI Leadership.

Focus Technology's vCAIO program delivers senior AI leadership and governance expertise without the overhead of a full-time executive.

THE AI LEADERSHIP GAP

- ⚠️ Few organizations have the expertise to govern AI responsibly
- 👤 Without an AI leader, policies lag and tools go ungoverned
- 🛡️ Risks compound: data leakage, model bias, regulatory scrutiny

WHAT vCAIO DELIVERS

- ★ Expert AI leadership without a full-time executive hire
- 📈 AI strategy with governance from day one
- 📦 Secure GenAI practices built into workflows

CORE SERVICE AREAS

- 🚀 **AI Strategy & Roadmap**
Use case ID, advisory, business case & ROI
- 🛡️ **Governance & Policy**
Acceptable use, data & model risk, vendor risk
- 📦 **Secure GenAI Development**
Secure SDLC, privacy protection, vendor risk
- 📋 **Responsible AI & Compliance**
NIST AI RMF, ISO/IEC 42001, ethics & bias

KEY BENEFITS

- 🛡️ **Cybersecurity Foundation**
Built on Focus Technology's existing governance discipline
- ⚡ **Speed to Value**
AI strategy in weeks, not 1–2 years
- ★ **Governance from Day 1**
Policy framework active from the start
- 👤 **Expert Leadership**
C-suite AI leadership at fractional cost

FREE VIRTUAL CHIEF AI OFFICER CONSULTATION

Most organizations are sitting on untapped AI potential held back by unclear strategy, data gaps, and governance uncertainty. The companies that close the AI leadership gap first compound the advantage every quarter.
